We, the Annual Staff of 1950 bring this annual to you with hopes that when time has rippled by in the river of life, you may turn the clock back and reminisce past friendship, good times and enjoyable school days you once knew.
The Annual staff of 49-50 dedicate this yearbook to Miss Jean Dugat in hopes that it will in some way express our endless appreciation for her devotion to the Trojan staff and her leadership as a teacher throughout our high school years. The staff.

Superintendent's
MESSAGE

First, I would like to express my appreciation to the seniors and the entire high school student body for the cooperative spirit in which you have helped to promote a better program of education for those who are to follow.

It is only through the help of our fine students, well trained and enthusiastic teachers, hard working school board members, and interested patrons that we have been able to keep pace with the growing needs of this system. In order to fit the needs of all the boys and girls in our school, we are constantly striving to broaden our curriculum, and to provide well trained teachers with wholesome personalities to help our students learn to get along with themselves and others happily, as well as to help each one discover and develop his special talents.

To the members of the Class of 1950, may I wish for each of you a life of success and happiness. I especially hope you will take it as your individual responsibility to help promote and preserve our American democratic way of life.

Jack C. Cates
Superintendent
This yearbook, like those of the past, shows the richness of student and faculty life on the campus of A. C. Jones High School. It will serve in the future as a reminder of fruitful, pleasant days spent here together.

My sincere congratulations to the staff of the Trojan for having put into permanent form the splendid record of our school year.

Principal

J. Bartwood Alley

Counselor

My aim as counselor is to assist the students of A. C. Jones High School in the selection of a program of study from which they will derive the greatest benefits in their pursuit of knowledge and to help them in the development of a character that will insure future happiness to them and to their associates.
