Miss B. I really have been a swell teacher. I hope that you still enjoy meeting a person so loyal and haven't really enjoyed being in your class. Thank you. (Sept. 59-60) I've really enjoyed being in your classes.

We feel that your school year of 1959-60 has been very enjoyable and eventful and that in the days to come you would like to recapture some of those moments that made the year so outstanding.

With this purpose in mind, we have guided our efforts toward one goal - to create for you a book that will always preserve the memories of this cherished school year.

We feel that we have finally reached that goal, and we present for you the result of our labor - Trojan of 1959-60.

We have worked faithfully on this book, and, if it brings back to you just one enjoyable thought of this school year, our efforts will be more than repaid.

YOUR ANNUAL STAFF

Joe Briones
Editor
Dedicated

... to one who spends each day in usefulness for our best interests.
... to one who commends us unreservedly, scolds us sparingly, teases us often, and encourages us always to our best efforts in scholarship, activity, and play.
... to one who understands and accepts us as we are, who respects our capabilities by entrusting us with adult responsibilities, and who makes us feel that he is one of us.

We, the Staff of the 1959-60 TROJAN, therefore find him most deserving of the dedication of our efforts on this book. We dedicate our book...
I look forward each year to the opportunity of writing a message for the Trojan Annual. One of the principal goals of education is to develop the feeling of responsibility in students that is so strongly indicated by the way the Annual Staff, the newspaper staff, and other student activities are conducted. The foundation of our democratic society is firmly embedded in our belief in the individual worth of each citizen. This means that we experience a degree of freedom and liberty known to few societies in the history of the world. Each of us must accept the full responsibility for his behavior and for his own economic, physical, mental, and spiritual well-being if we are to be contributing members of society. In order to fulfill this role, education is a necessity. You are now faced with making decisions and judgments that only an informed person can expect to do adequately. Your ability to make these judgments, to think critically, and to forge a better America is the supreme test of our educational program. I have faith that the youth of today will exceed our greatest expectations.

I heartily commend the 1959-60 student body and faculty. We have successfully met a great challenge this year: very crowded conditions and students attending classes on two widely separated campuses.

The fine school spirit which exists in our school and the mutual appreciation between students and faculty members has been a source of great pleasure to me. I sincerely hope that the future lives of you students will be happier and more successful because of your high school experiences.

Congratulations to the Trojan annual staff and the sponsor for this fine pictorial record of the 1959-60 school year. It will bring pleasant memories for many years.

It's hard to put into words what it means to me to be in your classes and to work on The Ram. Remember when I was a sophomore, I decided I wanted to work on the paper because I liked you. Well, I worked and I still like you.

I'll never forget the wonderful time I've had this year with you and the rest of the staff. Always remember me, my cator, and my frequent need for confession. Love,

To a very wonderful teacher and friend who understands girls better than I do, a little love always.

Miss D.

To a really wonderful English teacher and a new person. She has a real way, lots of energy, lots of fun.

To Martin Millard

Miss Dugat enjoyed having you in my English class. I hope you have a good summer.

Attention save.
