“May the living light of laughter lead us ever.”
Every year in our life may be compared with the aging of a fine wine. We begin with zeal and zest and as time passes we become mellower and wiser. Each year in our life, when tempered with sadness, joy, activity, hardship, tact, and time, becomes a memory which will prevail and endure, teaching us in later years. We do not live a day for the sake of living it, but rather to see how much we can learn and do in one day. This has been the goal of great men through the ages. The 1962 TROJAN is an endeavor to make an accurate record which might in future years allow one to look back and say, "I have learned since then," or "These years helped to shape my future." It has been a learning experience for me as Editor of the TROJAN to work with this student body and the staff that I have had. I would like to express my appreciation to everyone that has helped to make this year the great one that it has been and hope that this TROJAN will be one that brings a glowing light to your mind's memory.

Sincerely yours,

Mary Ann Geisler
Mrs. Brazel Dougherty

Accepting a task and doing it well, meeting each day with a smile and a feeling that one will face a test and overcome it, qualities such as these are endearing ones possessed by Mrs. Brazel Dougherty, TROJAN sponsor, bookkeeping, and secretarial training teacher. All can say that working with Mrs. Dougherty is not only enjoyable, but is worthwhile. To Mrs. Dougherty, who faces each test and emerges the victor, the members of the TROJAN staff dedicated the 1962 TROJAN yearbook.

Working to provide the best education possible for A. C. Jones students is not always an easy task. The members of the Board work diligently to establish and maintain high educational facilities. Their service has proved invaluable to the Beeville Independent School District. For a difficult task, well done, the Trojan Staff salutes the Beeville Board of Education.
ADMINISTRATION

Thy word shall be a lamp unto my feet and a light unto my path... Psalms 118
Leading and guiding Beeville Public Schools is the duty of Superintendent A. A. Roberts. He has faithfully served Beeville since 1957. Through his work and efforts, we have a new wing and many other advanced educational facilities. For improving and directing our education so capably, we owe a big, "Thank-you," to Mr. A. A. Roberts, Superintendent of Beeville Schools.

MR. A. A. ROBERTS, Superintendent of Beeville Schools

Each day of your life is like a pebble tossed into a pond. You cannot keep a ripple from being formed, but you can give that ripple purpose. You may never know who was influenced by it, for it touches all the lives around you. The ripple may be caused by an aimless or purposeful toss. The one caused by an aimless toss goes to rest as it reaches the bank and is never recorded as having existed. The one caused by a purposeful toss is harnessed into power as it suits the purpose of its creator and becomes a force to be directed into action.

Are you aimlessly struggling to the nearest bank upon which to rest? You can be the harnessed power upon which your ambitions and aspirations depend for development.

"A loyal and understanding friend" are words which describe Principal Lester W. McCoy. His school spirit, coupled with his desire to be a friend to all, has earned him the respect and admiration of everyone that knows him. Trojans feel more secure with the knowledge that a helpful hand is always near. It is a privilege to be under the guidance of Principal LESTER W. McCoy.

To the most wonderful person I know. I really mean it! Even though you lead a corrupt life, I still love little ole Jim Bob. Jimmy, dating you has been my pleasure and mine alone. You’ve helped make my 90 year much more enjoyable. Without you and your corrupt sayings I doubt if I could have made it.

I guess you know by now how much you mean to me. Like I told you, there are a lot of things I’d like to tell you but there are some things I can’t reveal until some time. I can’t express in words all the way I feel but I hope maybe you understand.
