We Salute the Faculty

We of the 1966 Trojan Annual Staff, salute the Faculty of A. C. Jones High School. We believe the faculty to be an important Key to our success. It is appropriate that we salute them for their hard work and efforts in and out of school.

The faculty is not only responsible for making available to us Knowledge, but helping us in our extra curricular activities.

Teachers put in many extra hours as sponsors of clubs and in supervision of sport activities.

Many long hours are spent without pay for the betterment of our school and its activities.

We would like to sincerely thank the faculty for their efforts, time, and outstanding work.

The school board is made up of seven members. These members have the duty of providing for the school system and establishing general politics in keeping with the law and the needs of the community. They serve for a term of two years, but no two men leave the board at the same time.

Superintendent

Mr. Archie Roberts

Schools are for learning and learning is for widening the individual horizons of life. I hope this has been the experience of each staff member and student of Beeville Public Schools during this year. This has been a most challenging school year for me, one of successes, of accomplishments, and, yes, one of some failures and disappointments. All of these experiences go together to season us for service in future years. When our accomplishments build pride and personal satisfaction, and when our failures spur us on to new thoughts and methods, they become indistinguishable in molding our actions to widening horizons for ourselves and others.

A. A. Roberts
Superintendent of Schools

Principal

Mr. Lester McCoy

It is my sincere hope that every student of A. C. Jones High School has profited educationally from his experience during this year. In addition to the acquisition of worthy knowledge we have stressed the development of individual responsibility and self-reliance. Many students have made admirable progress, and we are proud of them. Some have fallen short of the mark and should look forward to next year with renewed courage and ambition.

The 1965-66 Trojan Annual staff and sponsor are to be commended for this nice, pictorial review of the memorable events of this school year and the students and faculty members who participated in them.

Future Farmers

The Beeville FFA Chapter, organized in January of 1932, stresses the vital part of the Vocational Agriculture Program. The Primary Aim of the FFA is "The Development of Agriculture Leadership, Scholarship, and Citizenship."

Vocational students study methods and science of agricultural farming. The students are trained to carry on practical farm management. Emphasis is placed on farm mechanics involving the selection, care, maintenance, and operation of farm machinery.

The FFA participates in school functions by helping with the Annual Welfare Drive. Each year the Ag. students enter the Bee County Livestock Show.
